Abstract (en)
[origin: EP2449944A2] The household appliance has packaging elements (15-18) that are provided at the side surfaces of main portion, so as to cover the preset regions of main portion. The structural elements (1,5,7,9) are provided at the uncovered regions of the main portion. Each packaging element is comprised of force transmission area with force application region (21) which acts as bearing surface for structural element.
