Abstract (en)  
Explosive comprises a complex salt comprising mono-, di- or triaminoguanidine as a ligand, a potentially oxidizing or an energetic ion, and a counter ion complexed with the ligand. Independent claims are also included for: (1) the explosive comprising a mixture of at least two different explosives, where each of the different explosives is the explosive mentioned above; (2) the use of the complex salt as the explosive; and (3) the use of the mixture as the explosive, where mixture comprises at least two different explosives, and each of the different explosives is the explosive mentioned above.

Abstract (de)  
Die Erfindung betrifft einen Sprengstoff umfassend ein Komplexsalz, welches Mono-, Di- oder Triaminoguanidin als Liganden, ein den Liganden potentiell oxidierendes oder ein energetisches Ion und ein vom Liganden komplexiertes Gegenion umfasst.
