Abstract (en)

The element has an aesthetic part (1), a tab (5) and a latching lug (6) that is positioned to cooperate with round abutment contours (2, 3), where the element is designed with the contours. A set of positioning shoulders (4) is provided in contact with the abutment contours. Two wells are provided for receiving a set of fixing screws for securing the element. A closure cap is provided in front of a metallic bodywork. The tab is provided with a beveled end.

Abstract (fr)

Un élément de façade de carrosserie métallique formant coin comporte au moins une patte (5, 6) d'encliquetage et une conformation (2, 3, 4) de positionnement apte à coopérer avec des contours de façade à laquelle l'élément est destiné.
