Abstract (en)

[origin: WO2011003637A1] The present invention relates to a release agent for producing mould coatings by applying to inorganically or organically bound moulding materials in lost moulds or to cores for iron and steel casting. The ready-made release agent has a proportion by weight of 0.001% or more and less than 1% of inorganic hollow bodies that are made partially or entirely of crystalline material and have a softening point of 1000°C or higher.
