Abstract (en)

[origin: WO2011007092A1] The invention relates to a polyhydroxyalkanoic acid (PHA) composition, further including: (A) a core-shell elastomer compound; (B) and an olefin copolymer including an ethylenic monomer having an epoxy function. Said composition exhibits excellent impact properties, in particular to cold. The invention also relates to a method for manufacturing said composition and to parts manufactured from said composition.
