Abstract (en)

[origin: EP2454971A1] The pillow has an upper pillow part (1), a lower pillow part (2), and three pillow chambers (1a, 1b, 1c) provided at the upper pillow part, where the pillow is used in anatomical adapted formats such as 40 cm x 40 cm and 50 cm x 50 cm. A quilting seam (3) runs transversely in a flat manner and is formed by two individual seams. Partition of the pillow parts into the pillow chambers does not form a rectangular system. The pillow parts are filled with different filling materials, and a safety belt is attached at the pillow by stitched seams.
