Abstract (en)

[origin: EP2455527A1] The invention relates to laundry treating machine (1) having an improved user interface and to a method of interfacing user input to such machine. A laundry treating machine (1) according to the invention comprises a user interface (4) and operational displaying device (7) adapted to visualize operational features of said machine. Such machine is characterized in that said displaying device (7) comprises at least one appearance-changing graphical icon (8, 8A, 8B) whose appearance is changeable by setting one or more operational parameters of a laundry treating process.
