Abstract (en)

[origin: WO2011009724A1] The invention relates to a system for warning at least one person (13) in the vicinity(16) of a motor vehicle (2), particularly an electric vehicle (3) or a hybrid vehicle (4), comprising at least one generator (5) for generating an audio signal, a device for switching the generator (5) on and off and/or for controlling the volume of the audio signal, wherein at least one person (13) and/or an object (20) in the vicinity (16) of the motor vehicle (2) can be captured by a person-detecting system (8), and the at least one generator (5) can be switched on and off and/or the volume of the audio signal can be controlled by the device as a function of the at least one person (13) and/or the object (20).
