Abstract (en)
[origin: WO2011009220A1] The invention relates to a guide rail (15) for a sliding door (1), which guide rail can be screwed laterally onto a wall (39). The guide rail is fastened by means of threading through holes (27, 29) having different diameters. The holes (29) on the front side wall (19) of the guide rail (15) can be covered by a panel (37).
