Abstract (en)
[origin: WO2011009595A1] According to the invention, electric arresters (302, 303, 402, 403) with opposite electric polarity extend from a housing of a galvanic cell (301, 401) at several points for dissipating energy stored in the galvanic cell. At other points, the housing comprises a design (304, 305, 306, 307) supporting the space-saving fastening of the storage cell or a space-saving arrangement of fastening elements (408, 409, 410, 411) for fastening the storage cell within an installation
