Abstract (en)

[origin: EP2457659A2] The container (1) has a closed base area (2) and a circumferential wall (3) that is provided adjacent to the base area. The circumferential wall is extended orthogonally to the base area. A filling area (4) is provided opposite to the base area and adjacent to the circumferential wall. The container is made of plastic. Independent claims are also included for the following: (1) a sampling arrangement for use in autoclave-sterilized arrangement sampling of media from a container filling plant; and (2) a method for sampling of media from a container filling plant.
