Abstract (en)
The crusher has several metal strips (12,14,16,18) that intersect with each other at an angle of 90[deg] and include corresponding profiles (20,22,24) to form a lattice structure positively with each other. The metal strips are inserted into other metal strips through the profiles. The metal strips are positively connected to form a main portion of a grating structure. The metal strips are formed with rectangular cross-section perpendicular to longitudinal axis.

Abstract (de)
Die Erfindung betrifft einen Hammerbrecher-Rost aus mehreren sich kreuzenden Blechstreifen (12,14,16,18), wobei die Blechstreifen über korrespondierende Profilierungen unter Ausbildung einer Gitterstruktur miteinander formschlüssig verbunden sind.
