Abstract (en)
A steam ironing system (10) is disclosed as including an electric iron (12), and a water container (14) with a water outlet tube (50), in which the iron (12) includes a water tank (24) for storing water, a steam chamber (22) in a fluid-communicable relationship with the water tank (24), a water inlet tube (36) in a fluid-communicable relationship with the water tank (24), and a pump (34), in which the iron (12) is detachably engageable with the water container (14), and when the iron (12) is engaged with the water container (14), the water outlet tube (50) of the water container (14) is connected with the water inlet tube (36) of the iron (12) in a fluid-communicable relationship, and the pump (34) is operable to draw water in the water container (14) through the water outlet tube (50) and the water inlet tube (36) to the water tank (24).
