Abstract (en)

[origin: WO2011015513A2] The invention relates to hair treatment products containing solid particles in addition to a hair-fixing polymer, said solid particles being modified on the surface with polyethers. Said polyethers comprise a polyoxyalkylene chain consisting of ethylene oxide unit or ethylene oxides and propylene oxide units, with a maximum part of 50 wt. % of propylene oxide units, in relation to the weight of the polyoxyalkylene chain. Said hair treatment product is suitable for temporary hairstyling. Said solid particles modified with polyethers are suitable for using to prevent greasy skin and/or greasy hair.
