Abstract (en)
[origin: EP2462845A1] The present invention discloses a stereo displaying cabinet with an explosion-proof film comprising: an outer frame with a transparent layer; an automotive explosion-proof film layer which is attached to the transparent layer of the outer frame; a stereo rack, wherein several displaying units are formed by several shelves; a base plate with a light source assembly at the rear of the shelves, wherein several light source units are secured on the base plate; a baffle which is disposed between the base plate with the light source assembly and the stereo rack; wherein the outer frame is connected to the base plate with a removable fit; the photic layer of the explosion-proof film is located at the side of the light source units. The stereo displaying cabinet according to the present invention can both attain the two objects of planar display and stereo display, having an excellent advertisement displaying effect.
