Abstract (en)  
A spacer assembly comprising a first sidewall 1 and a second sidewall 2 and a first bridge 3 and a second bridge 4. The first bridge 3 and second bridge 4 and the first sidewall 1 and the second sidewall 2 are separate members joined permanently to form a spacer preferably by welding. The bridge 3 and/or 4 have reduced thickness to reduce the heat loss and employ substantially high strength metal material. The bridge 3,4 and sidewall 1,2 may also employ different metal materials.
