Abstract (en)

[origin: WO2011018143A1] The invention relates to a method for transmitting traffic information, wherein the traffic information is forecast; wherein a pattern for the traffic information is determined; wherein an indicator for identifying the pattern is transmitted. The invention further relates to a method for processing traffic information, wherein an indicator for identifying the pattern is received; wherein forecast traffic information is determined based on the indicator; wherein navigation is carried out subject to the forecast traffic information. In addition, a corresponding device is proposed.
