Abstract (en)
Footwear cover with nails, that has the general shape of shoes, that is made of plastic materials such as rubber or elastomer, including an upper opening (1) and with a sole that has a series of emerging nails (3), which, in one of their ends, are attached to a base (4) that remains embedded in the sole of the footwear cover, and additionally it may have a hole (7) in the inner part and in the heel area, that can be filled with a wedge (8). Thanks to the configuration described above, a cover that is adaptable to footwear, easy to put on, and resistant to exterior agents is achieved, which grips to the ground and avoids sliding and slips besides protecting footwear from damp, mud and dirt.
