Abstract (en)

[origin: EP2466067A2] The ventilation device (1) has a roof stand (2), and an openable closure element (3) arranged on the upper side of the roof stand. A heat resistant fan (10) is arranged inside the roof stand. The roof stand is made of metal. A control unit is coupled with one smoke detector. The control unit is provided for opening the closure element and/or for switching on the fan.
