Abstract (en)

[origin: WO2012013649A1] A switching mechanism (11) for a writing instrument(10) has a mechanism sleeve (12), with an upper portion (15) and a lower portion (14) for accommodating a writing insert (16). Also provided is a guide bushing (29), which has its lower portion (28) arranged in the upper portion (15) of the mechanism sleeve (12), wherein actuation of the guide bushing (29) results in actuation of the writing insert (16). A mechanical damping member (35) damps the movement of the guide bushing (29) indirectly or directly by friction.
