Abstract (en)

[origin: EP2468959A1] A method of forming tracks (4) in snow, to form a classic style cross-country ski track, includes separating at least two continuous elongated portions (27) of snow cover from the rest of the snow cover, the two continuous elongated portions (27) extending in a given direction (D1); and pressing the two continuous elongated portions (27) against the rest of the snow cover to form a track (4) along each continuous elongated portion (27).
