Abstract (en)
[origin: EP2468969A2] The system (1) includes a cover unit (11) for covering the upper side of the channel main portion (10) made of plastic material. A frame (12) is located on the side walls (15) of the channel main portion so as to enclose the side walls. A pin is inserted into the pin receivers (17) so that the upper side of the frame is introduced into the side walls.
