Abstract (en)

[origin: EP2468985A1] The floor covering device (10) comprises a covering base (12), which is mounted on bearing edge profiles (14.1,14.2), and an insertable leg receiving unit (22), which is connected at a corner connector (18) formed as an extruded aluminum profile for detachably connecting an insertable leg. The legs (20.1,20.2) of the corner connector have a transverse recess (30.1,30.2). An insert (32) is provided, which is formed as a plastic component. An independent claim is also included for an insertable leg receiving unit comprises a receiving opening.
