Abstract (en)

[origin: EP2469389A1] A mobile terminal for smoothly changing a page between page groups by using an indicator indicating a page group, and a method for changing a page in the mobile terminal are provided. The mobile terminal including: a display unit configured to display an indicator indicating a page group including a plurality of pages; an input unit configured to detect a gesture associated with the indicator; and a controller configured to control the display unit to display a page representing the page group, wherein the indicator discriminately displays the page representing the page group among the plurality of pages.
