Abstract (en)

The invention relates to a refrigerated horizontal display cabinet for assisted service commutable for self-service, comprising: a tank 2 which defines a compartment 3 for the display of goods, provided with a parapet 4 on an assistance side 2a; a screen wall 10. associated to the tank on the customer side 2b to prevent access to the compartment 3 from the customer side; - a supporting frame 31,35 which connects the wall 10 to the tank 2. The cabinet is characterised in that the wall 10 is divided into a lower portion 11 and an upper portion 12 and by the fact that the upper portion (12) is connected to the supporting frame (31,35) so that it can be moved between an assisted service configuration to a self service configuration.
