Abstract (en)
[origin: EP2472009A1] The draining device has a frame (2), a cover lying on the frame (2) in closing position and bearing units (16) for bearing the cover (4) on the frame in its closing position. The bearing units have a projection arranged at the cover and a cavity formed at the frame or a projection arranged at the frame. The cavity incorporates a section of projection in the closing position of the cover and in flowing or viscous position contains casting material (18) cemented in the cover.
