Abstract (en)  
The assembly (1) has two supports (3) formed with micro-perforations, and a support (2) formed without micro-perforations. The support without micro-perforations is not enclosed by the supports with micro-perforations. The supports with micro-perforations are superimposed with each other. The supports are formed of tensed layers constituted of films made of PVC. The supports consist of textile materials or any other flexible or rigid materials, where distance between the supports with micro-perforations is comprised between 10 and 90 mm.

Abstract (fr)  
Ensemble absorbant acoustique (1) destiné à constituer, à l'intérieur d'une enceinte, au moins un élément de paroi, cet ensemble (1) comportant au moins deux supports (3) pourvus de micro-perforations, un support (2) ne comprenant pas de micro-perforations caractérisé en ce que ledit support ne comprenant pas de micro-perforations (2) n'est pas encadré par les supports pourvus de micro-perforations et en ce que lesdits supports (3) sont superposés.
