Abstract (en)
[origin: EP2472121A2] The present invention relates to a centrifugal exhaust fan for bathrooms, comprising an outer casing (1) and an inner casing (2), between which there is defined an air passage from an intake (5) of the front part to a rotating drum (3) which is transversely arranged inside the inner casing (2), which is housed partially inside a tubular air exhaust nozzle (6) in the rear part such that the rotating drum (3) is set back at least partially with respect to the seating plane (10) of the exhaust fan in the application installation.
