Abstract (en)

[origin: WO2011026783A1] The invention relates to anti-penetration textile sheet material and to articles comprising said sheet material. Said anti-penetration textile sheet materials are characterised in that they have improved fragment protection and improved stab protection action as well as bullet-proofing. Said advantageous characteristic combination of the anti-penetration textile sheet material, which corresponds to the article, also applies to articles comprising said anti-penetration textile sheet material.
