Abstract (en)

[origin: WO2011023301A1] The present invention relates to a carriage housing 16 for a lifting-sliding door 1 or a lifting-sliding window having at least one lifting-sliding leaf or sash 7, wherein the carriage housing 16 comprises a longitudinal part 29 made of a U-shaped or trough-shaped profile section and a cover 23 at an open end of the longitudinal part 29. The present invention further relates to a lifting-sliding door 1 or a lifting-sliding window having at least one lifting-sliding leaf or sash 7, comprising at least one carriage housing 16 according to the invention. The carriage housing 16 according to the invention provides the lifting-sliding door 1 or the lifting-sliding window according to the invention with high profile section rigidity and gives a carriage that is used a dimensionally accurate base.
