Abstract (en)
[origin: EP2474458A1] A moveable platform barrier with a simple arrangement which enables stable standing/running of a moveable door receiving member is provided. A moveable platform barrier comprising a moveable door receiving member (3) moveable in the lengthwise direction of the platform (1) by a drive means along a guide rail (2) provided on a floor of a platform (1) and a door (4). A structural member positioned above the platform (1) is provided with an upper guide member (5) extending in the lengthwise direction of the platform (1). The moveable door receiving member (4) is supported by a supporting member (6) that is moveable along said upper guide member (5).
