Abstract (en)
[origin: EP2474662A1] The ironing system (1) comprises an ironing board (2) having a foldable frame (3) which is arranged on a column (4) formed as a standalone unit (5) with a steam generator for an iron. An ironing surface (6) is pivoted from a horizontal position into a vertical position. A guide arrangement (8) at rear end region (7) of ironing surface is cooperated with the column. The ironing board arranged on a carriage is connected to columns on rails (10,11). The rotationally fixed gears mounted at shaft (12) on carriage are engaged with racks that are provided along rails.
