Abstract (en)
[origin: WO2011029539A1] The present invention relates to a method for producing small lots of printed plastic film, wherein in terms of the resolution and colors the print corresponds to the print generated by means of the intaglio printing method. The film (1) is printed by way of an array of print heads (2a, 2b) with an ink using the ink jet printing method, said ink containing the same dyes and/or pigments, and the property of the ink is adapted to the ink jet printing method.
