Abstract (en)
[origin: WO2011029437A1] The invention relates to a steering wheel, comprising a hub, a steering wheel rim, and at least one spoke connecting the hub and the steering wheel rim, wherein the steering wheel has a frame, a molded body, and an outer casing covering the outside of the molded body at least partially. The aim of the present invention is to provide a steering wheel that offers an improved grip. This is achieved in that the outer casing comprises a woven fabric at least in some sections, the woven fabric being made of a leather material and a fiber material.
