Abstract (en)

[origin: WO2011026648A1] The invention relates to a packaging (1) for powdery materials having a bottom part (8) and a cover (9), wherein the bottom part has a strut in the upper region thereof. A further aspect of the invention, which can be alternative or cumulative, relates to a packaging for powdery materials wherein the bottom part has a connecting link having an opening. A further aspect of the invention relates to a method for dosing a powdery material, wherein an over-filled spoon is leveled off on a strut.
