Abstract (en)

[origin: WO2011030016A1] The invention relates to a method for obtaining an agricultural binder from cereal or non-cereal starch or starchy flours. According to the invention: a) a dry-homogenized mixture is prepared from at least one starchy flour or starch, lime, and dust resulting from scutching, optionally separated from the lignocellulosic fraction thereof, b) a solvent is added to said mixture to obtain said agricultural binder. The method according to the invention makes it possible to obtain starch-based agricultural binders having an improved moisture behaviour.
