Abstract (en)

[origin: EP2476345A1] The furniture (10) has a seat-/couch surface (22), armrests (24, 26) and a backrest (28) adjusted between a sitting position and a couch position. The armrests and the backrest cover a partial section of the seat couch surface in the sitting position and release the partial section in the couch position. The armrests and the backrest are supported at a base frame (12) in the sitting position and the couch position. The armrests and the backrest limit a rectangular seat surface in the sitting position and a rectangular couch surface in the couch position. An independent claim is also included for a fitting arrangement for adjusting backrest elements arranged at a seat-/couch furniture.
