Abstract (en)
[origin: EP2476463A2] The barrier has a guide rope (1) for a personal guard equipment and engaging on a side to an outer support at an anchor (2) over a connection device (18) in a high tensile manner. The guide rope has a rope clamp (19) with two clamping jaws between which the guide rope is clamped. One of the clamping jaws on an outer side is turned away from the other clamping jaw, and comprises a rope guide (16) with a support for a rope projection (24). The rope projection projects over the cable clamp, and is bent into a loop and engaged in the rope guide.
