Abstract (en)

[origin: EP2476980A2] The refrigerator (1) has a thermally insulated inner container (2) comprising upper and lower inner containers (2a, 2b). The upper and lower inner containers are provided with cooling chambers (3a,3b) and door leaf units (4a,4b) respectively. An outlet (7) is formed on a bottom wall of the thermally insulated inner container and is connected with a drain line. The drain line is provided with an inner wall having a seat for a connection piece.
