Abstract (en)
[origin: EP2478797A1] A convenient telescopic folding chair includes a front foot (1), back cushion (2), rear foot (3), seat cushion (4), and telescopic rods (5) arranged between the rear foot (13) and the seat cushion (4). The front foot (1) pivots on the rear foot (3) by connecting components. The back cushion (2) is inserted into two ends of the front foot (1). The rear foot (3) connects the seat cushion (4) through two telescopic rods (5) arranged to two ends of the rear foot (3). The seat cushion (4) is further connected to the front foot (1) through connecting components. The seat cushion (4) includes a tube frame (41) and a cushion (42). The cushion (42) is fixed to the frame (41) with two plugs (421) formed to two lateral sides of the cushion (42) inserting into two ends of the frame (41) so as to form a convenient, space-saving, light and fine folding chair.
