Abstract (en)

Disclosed herein is a cartridge chip model-exchange method, which includes: changing a drive program loaded in the cartridge chip; or changing model-identification data recorded in the cartridge chip; or changing the drive program loaded in the cartridge chip and changing the model-identification data recorded in the cartridge chip. The cartridge chip model-exchange method allows a cartridge chip used for a cartridge for a previous model of printer to be exchanged for a cartridge chip suited to a target model of printer, either by changing the drive program loaded in the cartridge chip or by changing the model-identification data recorded in the cartridge chip.
