Abstract (en)

[origin: EP2484246A1] The insert (2) has an outer machining part engaged with a housing of a ceramic link (1), where the insert is fixed in the housing in an irreversible manner. The outer machining part is provided with a threaded section or a non cylindrical section. An inner machining part (7) includes a cylindrical staff that lockingly receives an end (9) of a distance piece or a pin for the diameter lower than that of the end, where the distance piece or the pin is received in the housing. An independent claim is also included for an assembled link comprising link assemblies and a distance piece.
