Abstract (en)

[origin: WO2011042320A1] The invention relates to a device (1) for applying glue to semifinished packaging products (5), which has at least one glue valve (3, V a-f) that can be used to control the glue application (6, 7, 8, 9) to the semifinished packaging products, the device (1) being equipped with a glue guiding system (20, 21, 23a-f, 24, 25) which can be used to guide the glue towards a glue outlet opening (24). The device comprises at least one pressure sensor (DS 1-3, DS a-f) which can be used to measure the pressure (Pst) in at least one section (10, 11) of the glue guiding system (20, 21, 23a-f, 24, 25).
