Abstract (en)  
[origin: WO2011042488A1] The invention relates to the method for at least one solar structure (2) comprising one or more anchoring legs, characterized in that it includes the following steps: making one or more holes (T1, T2) in which the at least one solar structure is to be installed; making one or more concrete slabs (30) in the hole(s) at one installation rib; after drying the concrete slab(s), locating the position(s) of the anchoring leg(s) of the at least one solar structure on the concrete slab(s); installing the at least one solar structure in the hole(s), the anchoring leg(s) bearing on the concrete slab(s) at the position(s) of the anchoring leg(s) that were located beforehand; and embedding the at least one solar structure.
