Abstract (en)

[origin: WO2011042111A1] The invention relate to an electrochemical cell (1), comprising at least one electrode stack (2), which is arranged inside a casing (4) of the electrochemical cell, wherein the electrode stack (2) has at least one first electrode layer (5) and one second electrode layer (6), wherein a separator layer (7) is arranged between the first electrode layer (5) and the second electrode layer (6), wherein the first electrode layer (5) has a smaller areal extension than the second electrode layer (6), and wherein an in particular mechanically stabilizing edge layer (8) is arranged adjacent to the first electrode layer (5).
