Abstract (en)
[origin: WO2011042205A1] The invention relates to a connection unit (24) for connecting a solar plant (18) to a public line (40, 42), providing the option of connecting the solar plant (18) in different directions. According to the invention, the connection unit (24) can be used in four-field rotation, wherein the recovery phase for the soil is at the same time a phase for producing solar energy.
