Abstract (en)

[origin: EP2486824A1] The front-cover has a clam-shell structure comprising a congruent rear part (12) that is firmly connected with a plate-shaped front part (10). Multiple engagement structures (28) are formed on a side of the rear part for fastening-elements that are formed on furniture. The engagement structures are formed on respective adapter pieces (20), where the adapter pieces are inserted in openings (18) of the rear part. The adapter pieces are held between the front and rear parts, where the rear part and the adapter pieces are formed as molded plastic parts.
