Abstract (en)
[origin: EP2486908A2] The operating table column has a column base (12), a column part (10) connected with the column base, a head part (14) arranged for connecting with a patient support surface of the operating table and multiple adjusting drives (16,18,20), which have two elements. The former element of the former adjusting drive is connected with the column part such that the latter element of the former adjusting drive is adjustable only in the direction of a vertical axis.
