Abstract (en)

[origin: EP2487448A2] The device has a support structure (8) fastened to the shaft (2) of the handgun and formed with supporting areas for supporting the closure housing (3) and/or the barrel (1). A guide profile (9) for free seating of the support structure in the shaft is formed in the underside of the support structure. The guide profile is arranged at the edge of the support structure.
