Abstract (en)

[origin: WO2011045808A1] An improved carrying facility drivable along a non-linear conveyor means in the form of aerial ropeway having, at least, a hanger means operatively, connected to at least a means (1) for accommodating passengers and/or material and to at least a detachable rope gripping means, adapted to firmly grip said means for accommodating passengers and/or material via said hanger means, wherein said gripping means includes a vertical grip structure (5, 10, 11) adapted to shift the centroid of suspension to negotiate a horizontal deviation at operating speed along said non-linear conveyor means / aerial ropeway route, without the need for detachment and/or slowing down along said conveyor means.
